Board of Trade Meeting Monday Night

The regular meeting of the Board of Trade will be held in the Town Hall next Monday night, May 1st, and H. L. Seamans, Dominion Entomologist of Lethbridge will be here to address the meeting. Last meeting the blizzard prevented his coming. His talk will be on Insect Pests and their Control and should especially interest to farmers, who are especially invited to the meeting.

In addition to this, the condenser question, has been investigated to quite an extent by several local men, and some report on this will likely be made. If we are going into the dairy business at all, now is the time to prepare for winter milking.

Stampede time is getting close, and it is likely that some action as to dates, and preliminary committees will be taken at this meeting so that everyone should be present.

Don't stay home because you are not a member. The Board of Trade will take your dollar anytime, and you need the benefit of membership in the organization.

The date, Monday, May 1st; the time 8:15 p.m., and the place Raymond Town Hall.

ON THE GOLF COURSE

On the register of those playing at the local Golf Course over the week-end were: Geo. and Lee Brewerton, Dr. Hall, Stewart Card, A. H. Zabriskie, D. O. Menthall, I. Kitchen, F. Wood, Joe McLean, M. R. Woolf, Dr. Leech, Mrs. Leech, Perce Poulsen, L. R. Pack, T. Allen, Mrs. Allen, Mrs. Lee Brewerton, John O'Brien, Mrs. Zabriskie, Byron Wall, T. Geo. Wood, C. D. Compton Ted Hodson, Jack Forbes, Lenora and Herma Pack, Winston Shaw, Max Hicken, Jack Hansker, and Mrs. T. Nielson.

Mr. and Mrs. S. I. May were in Lethbridge Saturday on business.

H. J. Pierce of the local Safe way Store is sporting an Oldsmobile Sedan which he purchased last week.

June 12 has been decided on by England, France and the United States as the opening date for the World Economic Conference in London, and it is expected that all plans will now be made for that date.

Wedding Bells

GURNEY — BOYSON

The marriage of Miss Lorelle, daughter of Mrs. M. W. Boyson, and George Earl Gurney of Magrath was solemnized in the Alberta Temple on Thursday evening, April 20th, with Pres. E. J. Wood officiating. Relatives of the bride and groom were present as follows: Mrs. Boyson, Mr. and Mrs. W. D. Walton, Mr. and Mrs. George Gurney, Mr. and Mrs. Emery Gurney, and the following close family friends Mr. and Mrs. Byron Vance, Mr. and Mrs. Kirtland Wooley, Miss Ooms and others.

The young couple will make their home in Magrath where the groom is engaged in farming, and the best wishes of the community go with Lorelle to her new home. She has been a popular member of the younger set here, and as assistant to her mother in the Library has made a host of friends.

News Notes

Sam Dyson is busy constructing a porch on his home near the Canal.

Constable Wm. Ellis of Magrath was a Raymond visitor on Tuesday and Wednesday of this week.

Magistrate J. W. Low of Cardston was here Tuesday and held court, listening to a case or two.

Miss Velma Meldrum and brother Ralph were bus passengers to Lethbridge on Saturday afternoon last.

Mr. and Mrs. Ted Gourley moved on Wednesday into the house which has been occupied by Mr. and Mrs. Geo. Reay and family.

Lee Brewerton is putting a new fence in front of his home, in line with the clean up and Fix up campaign in the town.

Beet drills are busy in the district, now getting the beet acreage seeded, and from moisture conditions, germination should be quick and healthy.

"It was terrible," said Mrs. Murphy. "There were twenty-seven Swedes and an Irishman killed in the wreck."

"Indeed," said Mrs. Cogan. "The poor man."

Lee Brewerton made a birdie on No. 4 hole at the Golf Course over the week-end, this hole being a three par. Who will be next to equal or surpass this mark.

While work on the land is proceeding in some parts of the district, the ground is too wet to make it general, and it will be May 1st before many of the fields, especially south of town can be worked at all.

Said Our Boss—What on earth does that rooster want to crow for so early in the morning?

Said our boss's boss—Well dear, when you got up at six o'clock the other day you crowed about it for a week.

"Cavalcade" hailed as among the greatest of pictures, is coming to the Capitol early in May. All who have seen this offering urge everyone not to miss it for real entertainment and magnificent settings. Watch for dates.

From 4:15 to 4:30 Friday afternoon, local time, Premier R. B. Bennett will speak from Washington, D. C., over a network of Canadian stations, telling something of the progress of his work in Washington.

Wheat prices slumped again on the Winnipeg market on Saturday, and the closing quotations were May 58½¢, with futures around the 60 cent mark.

Elders J. T. Steele, Christian Jensen and Mrs. Fossey of Magrath were the speakers at the Second Ward Genealogical Meeting on Sunday evening last.

Meetings of the Town Council

The Town Council met on Thursday night last to go over some town business including the results of the Court of Revision, applications for Constable of the town and other items requiring attention.

There had been 19 applications for the office of Constable as follows: E. J. Baker, Medicine Hat; Edgar Nilsson, Byron Vance, Frank Jensen, G. H. Romeril, Wm. Selman, Arlo Palmer, Roscoe Larson, John McKett, V. L. Phillips, Frank Wight, Kenneth Knight, Glen S. Wooley, Ellison S. Hawk, Wm. Brysons of Calgary, Alex Geary, Maple Creek, Sask., Wm. C. LaMarr, Theodore Olsen and Alvin W. Jones.

After considerable discussion, and the hour getting late, and

Council decided to adjourn the meeting until Monday night to reach a decision on this subject.

Meeting again, the final decision was the appointment of Ellison S. Hawk, who has had considerable experience in these lines, and will, no doubt, render valuable and efficient service to the town. It was also decided to commence impounding stock immediately and someone will be appointed to ride the streets for loose animals. Take heed.

Several protests have been received by the Town against the assessment, and the Court of Revision considered these and appointed the Finance Committee of the Town Council to investigate, and act according to their best judgement in these matters.

News Notes

Mr. and Mrs. I. B. Roberts were amongst the visitors to Lethbridge Saturday.

Gray Kirkham was a Magrath visitor with friends on Sunday.

Peter Vergin, head of the Doukhobors stated in answer to a question that the Doukhobor colony of Doukhobors would remain and that building would start at once on elevators and storage facilities there to make the colony more solid and self-supporting.

The striking jobless and Calgary police clashed on Monday, and for a few minutes the jobless had the upper hand, but reinforcements from headquarters soon quelled the trouble, and the leaders of the trouble were lodged in the cells to have the trouble straightened. Protest against cutting jobless from the relief list was the cause of the trouble.

Jack Brown made a trip to Turner Valley this week for tractor fuel for his seeding operations which he expects to start today, Thursday.

An earthquake in Kos. Dodecanese Islands in Asia Minor, claimed 74 lives, 400 were injured and property damage was considerable. The quake occurred on Sunday.

C. F. Tollestrup, Ira McBride and Paul Redd were in Magrath Sunday afternoon in connection with the musical program for Conference, which will be held May 6th and 7th, commencing Saturday evening.

It would have been a mouth-watering experience for those by recently in London, England who liked their rum, to stand and witness the burning of \$60,000,000 worth of perfectly good rum, when fire gutted a portion of an immense warehouse at the docks. Spilling over the water, the flames danced around on top of the water in fiendish splendor and held spectators to a safe distance.

2nd Ward to Build Open Air Pavilion

Culminating a year of study and consideration by officials of the Raymond Second Ward, it was decided Sunday by an almost unanimous vote to proceed at once with the construction of an Open Air Dance floor of cinders and cement construction, to be about 110 feet long, and 60 feet wide.

The men in charge, with the interest of the young people at heart, felt that with the popularity of the open-air pavilion, the Raymond Second Ward should have one, where the youth could enjoy this pleasant entertainment beneath the starry skies, and enjoying the beautiful evenings of summer and early autumn. The floor is also being constructed with an eye to tennis, volley ball, children's games, and many other activities, for which it will be admirably suited, so that interest in the project will be general with both young and old.

Details of construction are not worked out, but cinders will be put in first to a depth of a foot or so, and then covered with finely woven wire, and then the floor laid of ordinary cement, with a surface of hard flintlike cement, which, it is claimed, makes the finest kind

of dance floor, and of course, would not be damaged by moisture like the ordinary open-air floors of lumber construction are. It is stated, that so long as the surface is maintained, they never wear out.

The location will be between the new Second Ward Chapel and the Japanese Temple, so that almost a complete protection is assured on the north and south, the end of the new Chapel will protect part of the east end, and the trees on the street will form a windbreak and protection from that angle. The construction will be such that footings can be put in later on, if found desirable, and the entire floor covered in. It will be wonderfully well-suited to basketball, tennis, volleyball, handball and many other things, so that it should make a real recreation centre, and should receive the support of everyone who is interested in recreation and entertainment as a means to health and contentment.

Everyone will watch the progress of the undertaking with interest, and those who can will no doubt assist with time and labor to complete an undertaking that will serve the needs of the people as well as this will do.

Allan Weaver With Party on Columbia Icefields

News Notes

Born to Mr. and Mrs. Wm. Lamarr at the Lethbridge Hospital, Sunday April 24th, a baby girl. Mother and babe are doing nicely.

Mr. and Mrs. Frank Rutten, Mr. and Mrs. Paul Redd and Mr. and Mrs. C. F. Tollestrup were amongst the visitors to Lethbridge last Saturday.

See and Hear The Baron, Famous Radio Star, in his first screen comedy, "THE MEAL TICKET", Monday at the Capitol.

Saturday was a lovely spring day, and the travel bug attacked many Raymondites and resulted in drives hither and yon. The afternoon was really quite warm.

Mrs. Witbeck, who suffered a stroke about a week or so ago, is reported as on the improve, which is a source of great joy to the family as well as to many friends of this good woman.

Misses Jeanne Wall and Maurine Palmer were Taber visitors during the Easter holidays, with Miss Thelma Harris, and we can almost believe Jeanne when she says there's no town like Taber. Is it the town?

Teams were busy in all directions Wednesday in the district around the Town. The ridge country was too wet to get on quite so soon.

Mounted police from Regina, Edmonton and Lethbridge, were sent to Calgary the early part of the week, to assist the Calgary police in keeping a check on and handling the unemployed riots which assumed serious proportions Monday and Tuesday of this week.

Chicago teachers of schools and colleges, and Police, resorted to fistfights in a melee which occurred when the teachers stormed a pay office on Wednesday and demanded part of their eight months salary which is unpaid, and which places them in very unpleasant circumstances indeed.

Things and stuff are doing despite the much talked of depression. We are informed on good authority that one of the garages in Lethbridge sold fourteen cars in one week's time, and they have 4 new sport models on order that they have been unable to get delivery on from the Factory yet.

The body of K. A. Blatchford ex-Mayor and M.P.P. for Edmonton was found in the Saskatchewan river near Edmonton shortly before noon Saturday, after he had been missing from his home since early Thursday morning. He had been ill, and physicians stated he may have been suffering from loss of memory.

A party, in honor of the 70th birthday of Leo C. Woolley, was held at the family home Monday night, when a few friends and neighbors joined with the family in an evening of games, conversation, and refreshments. Those present, beside the family were, Mr. and Mrs. D. A. Bennett, Mr. and Mrs. C. B. Strong, Mr. and Mrs. W. H. Zobel, Mr. and Mrs. Owen Lee, Mr. and Mrs. A. J. Walton, and all the married members of the family and their partners.

In company with two other Banff young men, Allan "Buck" Weaver, son of Mrs. Riley Weaver, made a ski trip during March up to and over the great Columbia Icefields, covering territory, we were going to say ground, never yet traversed by humans. The other members of the party were Cliff White and Rupe Edwards, and the braved the dangers of the mountain winter weather to make the journey.

Way up above the timber line camping on the icefield, without timber to burn, and trying to keep warm with a spirit stove, back-tracking to escape crevasses, and deep canyons in the field of glistening white, laboring where breathing became difficult because of the altitude and unable to stop because of provisions, they covered 3 travelling with a limited amount days distance in two on their skis, and returned unharmed, but full of wonderment at their experiences over and on the great icefields, where streams start that feed into the Pacific, Atlantic and Arctic oceans.

Their story is really gripping and makes excellent reading. If arrangements can be made we will publish it in the Recorder for our readers, all of whom know Allan, or "Buck" as he is better known.

SECOND WARD PARTY

The Ward Party on Friday night was well attended and all had a good time. The program was under the direction of Fritz Gemlich and consisted of two farces, "The Doctor" in which Milton Strong, Bob Hanna and Sam Dyson took part; "Box and Cox" in which Lee Wall, Fritz Gemlich and Mrs. Melchior took part; two readings by Mrs. Bill Evans, and jokes by Pres. J. W. Evans following the program dancing was enjoyed for the remainder of the evening.

Monday, May 1st, is Arbor Day, and has been declared an official holiday by the Provincial Government.

Elder Earl P. Tanner, the Chairman of the Stake Genealogical Committee was a speaker at the Raymond First Ward Sunday evening last.

Miss Grace Landlaw, a former school teacher here and well known to Raymond people and A. R. Crerar, of St. Albert, Texas, were married in Calgary, April 15, and after a honeymoon will make their home in Texas. People of Raymond and district congratulate the newlyweds and wish them joy.

Newlyweds Honored

Mrs. Boyson entertained Friday evening last at a wedding Supper, when 34 relatives and close friends of the family met in honor of Mr. and Mrs. Earl G. Gurney, (nee Miss Lorelle Boyson) and enjoyed a sumptuous repast prepared by Mrs. Boyson.

A beautiful wedding cake, with its basket of daffodils formed a centre of the table, and Easter lilies and pussy willows were the colors for the evening, and all present done full justice to the good things spread before them.

The remainder of the evening was spent in games, music, and conversation, and all had a very enjoyable time indeed.

THE RUSH IS ON

With good weather prevailing for the past ten days, work on the land is general, and the spring rush is on in full swing. Tractors are humming, and teams are busy, and when conditions permit literally thousands of acres are seeded every day to various kinds of grain, beets and hay.

Moisture conditions are excellent, the seed will go into almost a perfect seed bed as far as conditions for germination is concerned, and on well-prepared summerfallow present indications and conditions should result in heavy and thrifty stands with prospects for a record yield. Of course it is a long time till harvest and a great many things can happen to the crop.

This used to be a time of year when farmers hired all the way from one to ten men to help get the crop in, and when everyone that wanted work could find it, and plenty of it. What a change today. A man with his tractor and power machinery can do his own work nearly always by himself, and have time to spare. No horses to feed and the tractor makes no complaint if it is operated 16 or 18 hours a day, so long as it is provided with gas and oil. The change is here to stay. The only solution is the increasing of acreage, or the unemployed finding some other sort of employment to provide for themselves and their dependants.

There is a good average acreage of summerfallow throughout the district, and if this is all seeded, a good heavy crop should result. There is, however, a temptation always to "stubble in" additional acreage. Present prospects are excellent for this procedure. The ground is full of moisture, prospects are good for sufficient moisture, and there is a prospect, at present at least, of better prices for wheat.

While it is a sickening sight to see "stubble in" fields wilt and die during the hot days of the summer, June and July, when summerfallow fields stand the gaff without turning color, at the same time, to be paying taxes on idle land, in times like these, when it may be bringing a 30 or 40 bushel crop, is no joke, and the farmer has a question to decide all right, just as often as seeding time comes around. We know experience has taught us that the only safe method is to plant only well-summerfallowed fields, and still, in our experience there have been years when "stubble in" crops have much more profit than summerfallow.

If you were farming, what would you do? We would not attempt to answer.

The Associated Breweries, whose parent plant is in Lethbridge, have purchased, or are negotiating purchase of two more plants in the States for the manufacture of 3.2 per cent beer. One plant is in Spokane, Wash., and the other one in Missoula, Mont.

LOCOMOTIVE — "SHE"
Wear Jackets and Yokes, Pins Shields and Stays

Why is the locomotive called she? A road foreman of locomotives employed on the Canadian National believes he has the answer. He says: "There they wear jackets and yokes, are many reasons. For instance pins, shields and stays. They have aprons and laps, too. Not only do they have shoes but they sport pumps and even hose, while they drag trains behind them. They also attract attention with puffs and muflers and some times they foam and refuse to work. At such times they need to be switched. They need guiding and they require a man to feed them. They all smoke but most characteristic of all, is that they are much steadier when they are hooked up." — Wainwright Star.

"Cavalcade" Tops Every Screen Play Ever Made

Fox Production of Noel Coward Play Is A Magnificent Achievement in Film Drama—Sweep and Pathos are Tremendous

When Noel Coward, brilliant young English writer, launched his sensational stage success "Cavalcade," dramatic critics said he had borrowed from the technique of making films. He had used kaleidoscopic symbolism, the close-up and panorama in their screen play of the subject, which opens May 11th, at the Capitol Theatre, Fox Films are paying back with interest; they put "Cavalcade" where it really belongs—in the fluent medium of action—the movie.

From the first stroke of New Year 1900, when we meet the Marryot family—mother, father, two tiny sons, and their staff of servants—to the passing of the old year 1932, there is not a spare moment to pause over the greater of the thing. It is a film whose force will go home with people and bring others to the theatre.

The story opens with a war which takes away from their homes Robert Marryot and his butler, Alfred Bridges. To their wives, the ordeal would have faded into insignificance if they could have seen a few years ahead, for England's war in 1900 was a tea party.

News Notes

The grader was busy on the Factory road Friday smoothing out the ruts and working down a fresh coating of cinders placed on to preserve this stretch of road.

Hog prices were up 40c. per 100 lbs. on the Calgary market over the week-end, with select bringing \$5.25, and butchers \$4.25.

Bishop Ellis S. Heninger of Magrath 2nd ward was in town last Thursday enroute to either Winnipeg or Toronto with a shipment of lambs.

FREE — To Radio Owners

Farmers, Radio Service Men! The Winnipeg Radio Engineering Co., 260 Ellice Ave., Winnipeg, Man., will answer your radio problems and questions free of charge, please send enclosed stamped envelope.

We carry a Complete Stock of Radios and Radio Supplies. Battery Radios from \$12.00, and Electric Radios from \$29 and up. Short Wave Radios three tubes with 4 wave band plug in coils, and hear European stations, (with coils, \$9.50).

GRAMAPHONES, Table Models \$7.50; Console, \$9.90. Gramophone motors \$5.95. At a recent meeting of the Executive of the U.F.A. of Alberta, this body strongly urged the Government to rebate the \$5 of license fee to all who had paid their money prior to April 3rd.

HEALTH

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

CLEANLINESS

There is a story told of a child who was sent home from school because of the offensive smells arising from his unclean body and dirty clothing. He returned to school with a note to the teacher from his mother which read: "Joe ain't no rose; learn him, don't smell him."

Whether or not this story is true makes no particular difference. The point is that the adult of child who is not clean is an unpleasant person to have around because he offends the sense of smell.

We should keep our bodies clean and change our underclothing and stockings regularly so that we may not be offensive to other people. A warm bath at least once a week is usually sufficient to keep the skin of the body clean. The person who perspires freely or whose work is dirty or dusty needs to bathe more frequently.

Underclothes require to be changed frequently as they absorb the perspiration and become offensive. Stockings should be changed daily and the feet washed each day as smelly feet are particularly disagreeable.

A clean skin is desirable from a health standpoint. A clean skin does its work better than does a dirty skin. Of particular importance is the care of the hands. Because hands become soiled, it is necessary that they be thoroughly washed before each meal in order to prevent them from depositing the germs of disease on food and so enabling these germs to enter the mouth.

Personal appearance is improved when the skin is clean, the hair clean and neat, and the clothing clean. We feel better when we are clean. Cleanliness raises our feelings of self confidence, and causes us to enter into our work or play with greater zest.

Carelessness about personal appearance usually lowers self-respect. That is why, when we have some important social or business engagement, we "clean up". The child is affected just as is the adult. The child who is sent to school untidy and dirty is not being given a fair chance.

Cleanliness is a worth-while habit. It makes life more pleasant, and at the same time, more safe because certain forms of cleanliness, such as washing the hands before eating, are practical measures in the prevention of communicable diseases.

MIRROR REAL AMERICA

Turning from the city newspapers to the small town press exchanges that come to the Recorder's desk, is like stepping from the slums, full of vile, into an old-fashioned garden sweet with lavender and thyme and the scent of perennial flowers. The pages of the big dailies are so full of murder, thievery, immorality and selfishness, that the better news is obscured by these glaring shatterings of the Decalogue. One puts the papers aside with a feeling of depression and heartache that the world is so full of terrible and unhappy things.

Then picking up the papers that record the happenings of the little cities around us in Alberta, one gains renewed faith in life. Here are set forth only that which uplifts a community—the activities of the business men, the church news, the civic good accomplished by the women, school items, the happy social gatherings of the people, the marriages, births and deaths, farmers items, and all the thousand and one daily occurrences that make up the simple annals of the great common people who are really the foundation of this broad country of ours.

Scandals are seldom published in the country newspapers, but if it so happens that decency demands it, the uglier details are omitted or given a kindly touch that is wisely different from the unfeeling publicity of the city press. The offenders may be our neighbors, or people we have rubbed elbows with all our lives. They are real human beings to their home town paper, while to the great city dailies they are mere grains of a sort that are ground out hourly in their news mill.

SOME OF THE BEST OF THE
NEWER ORNAMENTAL PLANTS

There are large collections of ornamental plants at the Central Experimental Farm, Ottawa, in which the newer varieties are compared with the old. It often is found that a high-priced new variety is no better, if as good, as some variety very much like it. A great many new varieties of iris, for instance, have been introduced in recent years but only a few justify the price charged for them. The following iris, however, of which the price has now become reasonable, are among the distinct acquisitions and should be in every garden which has a collection of iris: Mount Royal, True Charm, Amber, Gay Hussar, Lady of June, Souvenir d'Loetitia Michaud, Majestic, Zulu, Tropic Seas, Geo. J. Tibbitt, Rheintochter, Mrs. Marion Cran, Imperator, Lord Lambourne, Valencia and Purissima.

The prices of peonies drop more slowly than those of iris and some of the good ones can scarcely be called of newer introduction nevertheless a few of the best double varieties tested at the Experimental Farm which may be mentioned which have come down considerably in price in recent years are: Le Cygne, Solange, Madame Jules Dessert, Therese, Tourangelle, Walter Faxon, Sarah Bernhardt, Longfellow and Kelway's Glorious.

Great advances have been made in Delphiniums in recent years. The most economical plan is to sow seed from the best named varieties and among the seedlings will usually be found some outstanding sorts.

The perennial lupines are charming plants and there has been great improvement in them in recent years. Seed of the best strains will usually give some lovely varieties.

Among the newer ornamental plants, the Regal lily has, perhaps, made the greatest impression on flower lovers. It is so hardy, so readily raised from seed and such a glorious sight in summer when in bloom that no garden should be without it.

Everyone who has room for a lilac should get one or more of the newer varieties, among which may be mentioned Le Marechal Foch, Edith Cavell, Decaisne, Congo, Olivier de Serres, Paul Thiriot, President Fallieres, and there are many others, some of which though they have been available for a good many years are rarely seen in Canadian gardens. The collection at the Experimental Farm, Ottawa, when in bloom in May is a sight not to be forgotten.

There are many other fine varieties of ornamental plants of recent introduction.

W. T. MACOON,
Dominion Horticulturist.

CHANGE IMPENDING IN
THE INDUSTRIAL SYSTEM

Frazier Hunt, a magazine writer, and who claims a foot-

hills ranch in the High River district in Alberta, has recently been interviewing men closely in touch with machine production, though they do not profess to be technocrats. Three of them were Henry Ford, the automobile magnate, a manufacturer; Charles F. Kettering, of the General Motors laboratories in Detroit, an inventor; and Dr. William Wickenden, head of the Case School of Applied Science in Cleveland, a teacher. Their views were summarized as follows in the Lethbridge Herald:

Henry Ford declares that the industry of the future will be based upon the farm, that the day of the big industrial plant and big city is over, and that in future factory workers will live on farms, producing their food needs, working in factories near by in their spare time. It is a plan which Mr. Ford has advocated for many years. Mr. Ford says "machines have not started yet," meaning that the machine age will develop tremendously.

Dr. Wickenden, the teacher, declares that when machines do away with men in factories they will have to take care of those men, but that a way will be found to make the two complementary. Machines, he points out, have precision but no brains. Men will master the technique of the machine, though at present they have not done so.

Charles F. Kettering, the inventor and research scientist, says it's not the machines that are wrong, but the system based upon them. Change is the one law of nature which must make his system elastic enough to take advantage of the changes.

These three men see no menace in the machine. But they do declare for a change in system to keep step with the change in productive methods.—Red Deer Advocate.

News Notes

Dr. Fowler of Mayrath was a Raymond visitor on Friday last week.

...

Ray Knight returned last week from a business trip to Calgary.

...

Jack Hervey was unable to work all last week because of a relapse from his recent attack of flu. He tried to get back to the forge too soon.

E. L. Spackman recently moved into the C. B. Smith house near the Canal.

Jos. Elder has his new garage and home well under way. On Friday last he had a crew of about ten men busy lathing, fitting doors, windows, etc., and the building will soon be ready for occupancy.

Mr. and Mrs. S. I. May were visitors in Mayrath on Friday last.

WOULDN'T you welcome something extra crisp and refreshing? Well, serve Kellogg's Corn Flakes with milk or cream and add canned fruits or honey.

The flavor and crispness will delight you—and you'll feel better after eating these easy-to-digest flakes. Made by Kellogg in London, Ontario.

Kellogg's for crispness

News Notes

The son of D. A. Walton who was accidentally shot near the heart, some time ago is improving rapidly and has been out of the hospital for some time past.

James Williams, son of Mr. and Mrs. S. B. Williams, had a badly infected eye, and was in town Friday for treatment for it.

Wheat on Thursday last was up to 55 and 5-8 Winnipeg quotations. This was the highest for a number of months.

At the Convention of the Alberta Branch of the Canadian Manufacturers' Association held in Calgary last week, J. Geo. Wood of the Canadian Sugar Factories, Limited, Raymond, was named Chairman for the ensuing year. Congratulations, Mr. Wood.

Mr. and Mrs. Donny Nilsson were Lethbridge visitors Saturday.

Fred Ralph was moving his household effects to his farm home the latter part of the week. The roads were very heavy for freighting.

Born to Mr. and Mrs. Truman Holt on Friday, April 21st an eight pound baby girl. Mother and babe are doing nicely, and Truman is the proudest dady in town.

Frank Rutten moved the portable cars to the Golf Course Monday, and is now ready to accommodate patrons with refreshments of all kinds, and he is also carrying a full line of golf supplies.

It won't be many days until gardeners will be telling about what they have up, and the progress it is making. The soil is in excellent condition for planting and for rapid growth.

Mr. and Mrs. A. H. Zabriskie were Lethbridge visitors with the children Saturday afternoon. Arnold took Dr. Leach's car over to him on his return from Victoria.

News Notes

Margaret Lefferty spent the Easter holidays in Magrath with friends.

School commenced again Monday, after a nice long holiday, which was enjoyed by the teachers and students too.

Mrs. Bill Mitchell was taken to the Lethbridge Hospital Monday, suffering from inflammatory rheumatism. At latest reports she is feeling better. Frank Shaw took her over accompanied by her husband and Mr. and Mrs. Wally Baratt.

A delightful party was held at the home of Mr. and Mrs. E. A. Price Saturday evening when a few friends were in for the evening. Games and refreshments.

Give me a trial
3M11 Mrs. R. T. Graham.

The crane at the Factory was busy Friday unloading gravel for work on the new Storage bins. A new spur has been laid down past the bins, and it is expected that work will commence, or probably has commenced by the time this appears in print.

Weather over the week-end was delightful, and the ladies were replete in their new and beautiful spring outfits.

Mr. and Mrs. W. D. Walton of Diamond City spent a few days here with friends and relatives last week.

Getting into holes in the road is still a popular pastime, although trucks are indulging more than cars at the present time.

Nephthi McLean, Fred Brown Wm. Lamarr, et al, were in Lethbridge on Monday last.

E. P. Stringam, representing the I.C.S., whose headquarters are in Lethbridge was a Raymond visitor on Monday last.

Alonzo Stringam of Glenwood, was a Raymond visitor on business over the week-end. He is looking after the Stringam cattle here and on the Harvey lease.

Oil men have been busy the past week getting ready for the spring rush for gas and oil, when farmers get busy with their tractors.

Mr. and Mrs. Byron Vance, Mrs. R. A. VanOrman and several of the family relatives were at the Temple sessions on Thursday last.

Mr. and Mrs. Maurice Cooper and family spent Thursday last at the farm with Mr. and Mrs. Reg. Cooper and family.

Mr. and Mrs. Arthur Dahl have moved from Cardston now, and are living with the Dahl family until their new home is completed, which will probably be about two weeks time.

FOR RENT—One or two rooms, close in. See Chas. H. Walton.

Jesse Gibb and members of the family were in Lethbridge on Saturday.

CANADA—THE IDEAL VACATION LAND

A COUNTRY OF SCENIC CHARM AND OUTDOOR RECREATION
UNEXCELLED IN ABUNDANCE AND VARIETY OF HOLIDAY ATTRACTIONS

In recent years Canada has become one of the most popular playgrounds of the North American continent and millions of tourists visit this country annually, in search of recreation.

Canada possesses an extensive system of modern highways, with good secondary roads linking together the main routes of travel. Excellent train services are in operation between the principal cities, while steamship lines connect lake and ocean ports. Every class of travel accommodation is available, from tourist camp to luxurious hotel. Our larger Canadian cities possess some of the finest hotels in the world and the majority of smaller cities and towns have modern establishments which cater to the travelling public.

Recreational Attractions Nearby
Within reasonable touring distance of the main centres of population, recreational attractions of outstanding merit are to be found. Lakes and rivers well stocked with fish, hunting areas of vast extent and camping grounds in their natural state, are only a few of the many features which make the country a popular vacation land during all seasons of the year. An atmosphere of old France permeates Quebec and the Maritimes, while Ontario and the Western provinces have much to offer by way of historic sites and monuments.

Numerous Canoe Trips
For those who desire a vacation close to nature, a canoe trip is ideal and Canada's extensive system of rivers and lakes offers a limitless choice of route and type of trip. For the novice there are many trips close to civilization, which may be taken with comfort and perfect safety, while unexplored and even unexplored regions challenge the expert and the adventurous. Canoes and equipment may be rented and guides are available in practically all districts. Subject to reasonable fire prevention regulations the canoeist, camper, camera hunter or student of wild life, may come and go, unrestricted, through the country's vast forested area.

Excellent Fishing
Canada's fishing waters, on account of their extent and diversified nature, provide an exceptional range of sport for the angler. The game fish include, salmon, brook trout, lake trout, bass, muskellunge, pike, pickerel, grayling, steelhead and tuna. Intelligent protection and constant re-stocking help to keep up the supply of fish in the popular districts, while in the more remote areas there are still plenty of virgin waters. The cost of fishing licences is moderate and the open seasons are long.

Golf and Tennis Popular
Canada is well supplied with golf courses and new ones are being built in every province. No city is without at least one golf club and most of the larger towns and popular summer resorts have courses. Tennis is also popular in all parts of the country.

Government Bureau Free Information Service

A number of specially prepared booklets on Canada's recreational attractions and automobile road maps indicating the main connecting highways between one province and another may be obtained free of charge by adults, from the National Development Bureau of the Department of the Interior, at Ottawa. The Bureau also has on file information concerning practically all phases of recreation in Canada, which will be gladly provided, upon request. In order that the most complete information may be supplied it is desirable that applicants be as specific as possible as to the areas in which interested.
